Liberty Gap Cover

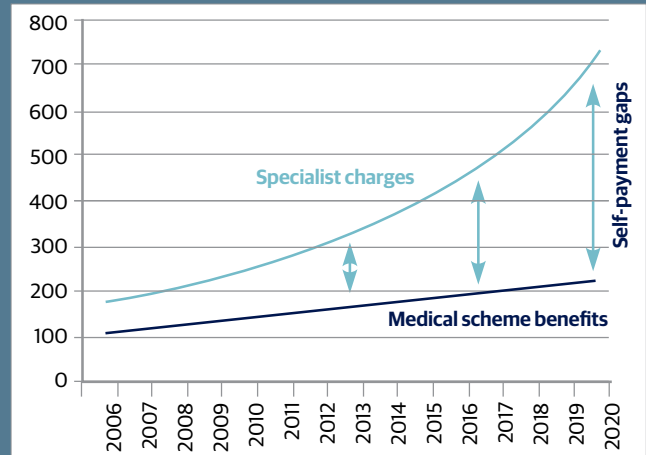

A problem faced by many medical scheme members is that surgeons, anaesthetists and other specialists often charge substantially more than medical scheme rates. When this occurs, the medical scheme member becomes liable to pay the medical expense shortfall (self-payment gap).

The table below shows some common medical procedures that lead to medical expense shortfalls. The Rand amounts are the portion of the costs that are not covered by the medical scheme and usually require payment by the member. These amounts are based on actual Gap Cover claims paid in 2017.

Examples of Medical Procedures	Medical Expense Shortfall Amount	Paid by Gap Cover
Natural Childbirth	R 18 464	✓
C-Section Childbirth	R 29 618	✓
Hernia Repair	R 30 905	✓
Knee Replacement Surgery	R 72 793	✓
Hip Replacement Surgery	R 66 178	✓
Spinal Surgery	R 76 658	✓
Cardiac Bypass Surgery	R107 069	✓
Cancer Treatment	R 59 699	✓

The continued growth in the self-payment gap means that medical schemes now pay less than half of the average total specialist fees, leaving members to pay the shortfall amount.

The graph below shows how the self-payment gap has grown since 2006 and how this trend is expected to grow into the future.

Members of any medical scheme can be insured against medical expense shortfalls through either of Liberty's top-of-the-range Gap Cover options

Liberty Universal Gap Cover offers the most *comprehensive medical expense shortfall cover* along with additional financial protection for a wide range of health risks.

Liberty Essential Gap Cover offers affordable medical expense shortfall cover for the *most frequent shortfalls*, along with additional financial protection for selected health risks.

Both of these options are available to main members and dependants of all South African registered medical schemes.

The cover offered by these policies can be further enhanced by taking our **Extended Cancer, Extended Dentistry and/or Medical Premium Waiver Cover** options.

Please note that Liberty Gap Cover is not a medical scheme or a substitute for medical scheme cover. Liberty Gap Cover is top-up health insurance that provides cover for medical expense shortfalls that arise when medical schemes only cover part of the treatment and/or procedure costs. To qualify for this cover, the medical scheme's part payment must be paid from the medical scheme's hospital benefit or major medical benefit.

To assist in choosing the Liberty Gap Cover option that best suits your needs, please study the summary of benefits to follow. If you require further assistance and advice, please contact your Liberty Financial Adviser.

Waiting periods and pre-existing condition exclusion

No general or condition-specific waiting periods apply. However, no benefits can be claimed for a period of 12 months from the start date of cover in respect of medical conditions, for which in the 12 months before the start date of the cover, medical advice, diagnosis, care or treatment was received or would reasonably have been recommended.

Pregnancy before the start date of cover will be regarded as a pre-existing condition and any pregnancy and birth-related claims will be excluded for 12 months from the start date of the cover.

If prior to the start date of Liberty Gap Cover, a policyholder had cover under another Medical Expense Shortfall Policy with similar benefits, then the pre-existing condition waiting period will only be applied to the unexpired part of the pre-existing condition waiting period from the previous policy.
